A bi-pod, rear bag, front bag and all optics are allowed. This is a chance to shoot that long range .22cal, varmint or tactical rifle that you might have. We will focus on improving your skills at longer distances. .22cal rifles will shoot to 100 yds. Using the 100 Yard F-Class Practice target. Centerfire rifles will be shooting the MR-52 at 200 yards. A good spotting scope and shooting mat or carpet are helpful, but not required.

The course of fire will consist of unlimited sighting shots in ten minutes and 20 shots for record in 25 minutes. There will be two targets for each shooter. A total of 20 rounds will be needed for record plus sighting rounds.

Start time begins with safety briefing and explanation of the course of fire and a review of the range commands we will be using in the session.
